Summary

A Seattle-based Web Developer, Full Stack Engineer, and Comedian. A lover of the outdoors, learning everything tech, and telling jokes. Dustin's passion is helping fellow engineers tinker, break, and fix things, whether its code or team morale. His software delivers robust functionality with performant UI and user-friendly experience, while touching dynamic and ever-growing data structures.

Technical Skills

Languages: Javascript, Typescript, HTML/CSS, JSON, shell scripting.

Libraries / Tools: Express, MySQL/NoSQL, Git, Node.js, React, React Native

Other: Heroku, Expo.io, Android Studio

Projects

Tee Time

2020 - Present

Live Demo || <https://tee-time-seattle.herokuapp.com>

GitHub Repo || <https://github.com/E-Bossler/tee-time>

A full-stack, social golf app. You can add friends, create matches with them, and keep track of your entire golf score / history. Live stat tracking, live match chat, and a running mobile android app with React Native. Tee Time is a real, marketable golf solution.

Tools: React Native, Socket.io, Mongoose, Sass, Recharts, Axios, Bcrypt Hash

G-Master

2020 - Present

(Live Demo Coming Soon!)

GitHub Repo || <https://github.com/dustinjack99/character-sheet>

All-in-one character sheet app that fully integrates rolling statistics into Discord chat rooms. Using the Discord API, our virtual character sheets help players and Game Masters store character stats that populates information into Discord via a channel bot. From Dungeons and Dragons to White Wolf Publishing, G-Mastered aims to be the end-all-be-all Discord tool for tabletop roleplayers.

Tools: Socket.io, React, Postgres, Typescript, Discord API, Dotenv, Express,

Scrabble Dabble -

2019- 2020

Live Demo || <https://dustinjack99.github.io/ScrabbleDabble/landing.html>

GitHub Repo || <https://github.com/dustinjack99/ScrabbleDabble>

A speed-spelling game that splashes a gif of whatever word the user spells onto the screen. Scores are stored in a high score table, and bonuses are dynamically tallied while the user spells more intricate words. Have fun spelling!

Tools: Vanilla JS, HTML/CSS, Merriam-Webster API, GIPHY API

Experience

Bartender

2019 – 2020

Mioposto

Seattle, WA

Operating a leadership role in the restaurant while mixing high-quality drinks from the cocktail menu. Most of the guest experience at the bar is presenting a very personal, intimate interest in their dining experience, as well as their thoughts and feelings. This position is also responsible for accurate, secure cash flow and closing down the entire restaurant at the end of the night.

Key Accomplishments:

- Able to execute any drink order, even those not on the cocktail menu.
- Fantastic working relationship with fellow staff, management, and owners.
- Has frequently run the entire restaurant floor without any other front of house staff.

Server

2018 – 2019

The Nest, Hyatt Seattle

Seattle, WA

Serving drinks on the premiere rooftop cocktail lounge in downtown Seattle. Through the busy summer season, servers will routinely ring over \$5000 in nightly alcohol sales alone, with the bar moving upwards of \$30,000. Servers are the frontline in customer satisfaction, professional demeanor, and the ones to deliver results to guests with very high expectations.

Key Accomplishments:

- Frequently serviced hundreds of people a night, creating lasting memories for everyone.
- Worked proficiently in very fast-paced, demanding conditions for long hours.
- Part of the team that earned the Nest a Forbes 4-Star rating.

Education / Certifications

University of Washington Coding Bootcamp

Certificate

Minnesota State University, Mankato

Graduated Cum Laude 3.7 GPA
